## EDUCATION

**Vellore Institute of Technology, Bhopal University**

*Bachelor of Technology in Computer Science and Engineering, Cumulative GPA: 9.14*

Kothri, Sehore

*Expected June 2026*

## TECHNICAL SKILLS

**Languages & Subjects:** C++, JavaScript

**Frameworks & Developer Tools:** NextJS, ReactJS, TailwindCSS, MySQL, Powershell, Node.js, Express.js, MongoDB

## EXPERIENCE

**Software Development Intern**

January 2025 – Present

*VisaKwik*

*Remote*

- Developed and optimized Chrome extensions to automate visa application workflows, successfully streamlining the process for over 5+ countries.
- Implemented robust web scraping solutions using modern tools and techniques to extract and process complex visa application data with high accuracy.
- Enhanced browser automation capabilities, reducing manual intervention by 70%, improving operational efficiency, and accelerating application processing times.

## PROJECTS

**ISRO-Revamped (Team)** | *JavaScript, Reactjs, GSAP, Framer Motion, Three.js, Tailwind*

June 2024

- Redesigned ISRO's website with a responsive, modern interface, increasing user engagement and fostering greater interest in space exploration through an intuitive and visually compelling design.
- Incorporated GSAP-powered animations and micro-interactions, enhancing the website's interactivity and creating an immersive user experience.
- Led frontend optimization to ensure seamless performance and accessibility across devices, improving load times and responsiveness by approximately 10%.

Deployed Version : <https://asyns-reimagine-round1.vercel.app/>

Github Repository : <https://github.com/Atharv-Sathe/AsynsReimagineRound1>

**Markdown Blog (Individual)** | *Node.js, Express.js, MongoDB, Bootstrap, EJS*

October 2024

- Developed a dynamic Markdown blog platform with robust CRUD functionalities, secure parsing, and HTML sanitization using dompurify and marked, ensuring efficient content management and protection against vulnerabilities.
- Designed a responsive, user-friendly interface leveraging Bootstrap and EJS templates, enhancing accessibility and user engagement by approximately 20%.

Deployed Version : <https://markdown-blog-lqfg.onrender.com/>

Github Repository : <https://github.com/Atharv-Sathe/markdown-blog>

**PolyGlot Chrome Extension (Team)** | *React.js, JavaScript, TypeScript, Tailwind, Translator API* December 2024

- Developed a feature-rich Chrome extension to streamline multilingual content interaction, enabling users to translate text across 10+ languages and generate concise summaries in customizable tones and lengths.
- Optimized communication between content scripts, service workers, and popup UI, achieving a smoother workflow and reducing user wait times by approximately 30%.
- Enhanced accessibility and usability with a responsive, intuitive interface built using React.js and Tailwind CSS, ensuring seamless user interaction across devices.

GitHub Repository : <https://github.com/Atharv-Sathe/PolyGlot>

## COMMUNITY & LEADERSHIP

**Technical Team Lead**

October 2024 – Present

*Google Developer Groups on Campus*

*Bhopal, MP*

- Direction and management of technical teams, including Android, ML, blockchain, women tech makers, and web development, to ensure effective project execution and skill development.
- Designed and implemented a full-featured Discord server to maximize community engagement, facilitating discussions, coding challenges, and resource sharing among members.
